*Growers of hardy pears and new and better fruits for
the North*

Letters
from our customers

•
MINNESOTA

Dear Sirs: The pear trees and berry plants you sent us last year grew 100%. Enclosed find another order.

Yours truly,
Geo. Girling.

•
Dear Sirs: We wish to say that out of the 75 trees we bought of you every one of them grew. They were the best trees we ever saw. Send us your catalog.

Yours truly,
Woydick Bros.

•
WISCONSIN

Dear Sirs: The raspberry plants we purchased of you last year were the best we ever saw. They were full of pep and bore a crop of berries this year. Please send us your catalog.

Sincerely yours,
E. H. Uecker.

•
CANADA

Dear Mr. Zachman: I am glad that I can report that the Zachman pear is hardy here and that it is blight-resistant. The fruit gets very large and is good.

Your friend,
D. Tait.

•
SOUTH DAKOTA

Gentlemen: I wish to thank you for the fine lot of raspberry and strawberry plants. They all grew. The pear and other trees also grew. Send catalog.

Good luck from
Mrs. Violet Bates.

Zachman's Nursery

HARDY STOCK THAT GROWS

A Personal Message from L. M. Zachman

We wish to thank you for the orders you have given us in the past. We trust and hope to serve you again this year. Repeat orders indicate that our customers are pleased with the goods which we shipped them. We send only the best trees and plants.

When you buy nursery stock look ahead! You are betting your time and money that the salesman's story and deceiving picture will come true. What you want is results. Pretty pictures and wonderful stories won't get you the results you want unless they are backed up with the GOODS. Why take chances when you can buy Zachman's northern grown trees?

Our fruit trees made a fine growth this year in spite of the dry summer. Fruit growing in the north is only in its infancy. Hardy fruits, such as apples, pears, plums, cherries and raspberries, are equal to tropical fruits in size and quality. We specialize in new fruits introduced and recommended by the Minnesota Experimental Station.

Our nursery is located 25 miles northwest of St. Paul on State Highway Number 152. We invite you to visit us at any time. We are always glad to show folks our pear trees, which are our specialty. Once more we want to remind you to buy northern grown trees on hardy roots. We believe that this is the first step to success.

Sincerely yours,

L. M. ZACHMAN

Hardy Pears for the North

We offer pears that are hardy in the North. This is our specialty. Any of the pear trees that have gone through the winters of 1935 and 1936 with the temperatures as low as 40 degrees below zero surely are hardy. This spring we are offering the following varieties:

PEARS

ZACHMAN—Largest hardy pear. Ripens green with blush red cheek. No grit and is a good quality eating pear. It will keep until the first of the year. Zachman is perfectly hardy, even in Canada. Never known to blight.

ASPA—A medium sized pear of very good quality. Has red cheek. Originated by the Lake City Nursery. Appears to be perfectly hardy. Does not blight.

SIMOLA—Pear originated by Prof. N. E. Hansen of South Dakota State College. A rather small pear but of fair quality. Very hardy.

MING—Another of Prof. Hansen's originations. Similar to Simola but somewhat rounder. Very hardy.

PATTEN NO. 5—Very rapid grower. Very hardy. Fruit gets quite red, almost size of a medium-sized hen's egg. Bears heavily, just like plums in clusters. Very sweet, just like sugar. Also juicy. Charles Patten of Charles City, Iowa, Iowa State College, has taken it over.

TAIT NO. 1—Hardy Canadian pear.

TAIT NO. 2—Hardy Canadian pear.

TAIT NO. 4—Very good, rather round medium-sized pear. Ripens early, and bears quite young. Hardy.

HANDMADE PEAR TREES

They are Ussuriensis (wild pear trees), 1½ in. to 1¼ in. in diameter, about 3 ft. high, with three different varieties of pear buds grafted in. Let only the grafted buds grow and in a few years you can pick three different varieties of pears from one tree.

½ to ¾ in. stocks, \$2.50 each; 2 for \$4.50; 4 for \$8.00

¾ to 1¼ in. stocks, \$2.75 each; 2 for \$4.75; 4 for \$8.50

All of our pears are grafted on Harbin Ussuriensis Pear Roots—the only kind which we have found suitable for the North.

Apples...Plums...Cherries

APPLES

Northern-grown apple trees are scarce because of the drought in recent years, but we do not handle any other kind because we have found that southern-grown apple trees are not adapted to the northern sections.

HARALSON—Hardy, long-keeping apple. Originated at the plant breeding farm at the University of Minnesota. Good flavor.

5 to 6 ft., \$1.25

McINTOSH—A popular, long-keeping apple. Bright red, good flavor.

5 to 6 ft., \$1.00

WEALTHY—Excellent flavor. Hardy tree. Keeps till early winter.

5 to 6 ft., \$1.00

TRANSCENDENT—One of the most popular crab apples.

5 to 6 ft., \$1.00

NORTHWESTERN GREENING—A good bearer. Long-keeping variety. Color green.

5 to 6 ft., \$1.00

PLUMS

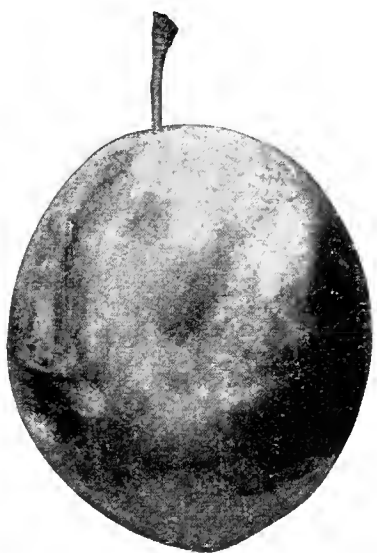

Large Bearing Size Trees

SUPERIOR—A favorite.

FIEBING—An exceptional plum with unusually fine flavor.

LA CRESCENT—Another excellent plum which is increasing in popularity.

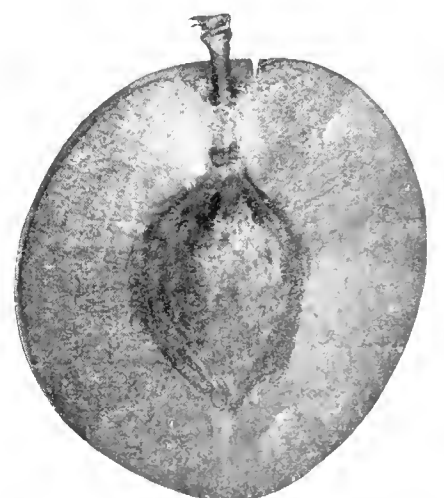

All 5 to 7 ft. trees, each, \$1.20; 3 for \$3.45; 10 for \$11.25

CHERRIES

OKA CHERRY—Thrives anywhere. Bears black-red flesh fruit the first year. The finest of all cherries.

4 to 6 ft., each, \$1.00; 2 for \$1.80; 5 for \$4.25

Strawberries—Raspberries—Grapes

HOME GARDEN ASSORTMENTS

25 Dorsett	25 Blakemore	\$1.00
25 Fairfax	25 Senator Dunlap	Postage 15c

RASPBERRIES

Raspberries are one of the easiest fruits to grow successfully. It is necessary, however, to have good plants to start with. Our plants are all state-inspected and are put in two grades.

LATHAM—A standard favorite.

Number 1:

25, \$0.75; 100, \$2.50; 500, \$10.00; 1,000, \$20.00

Extra large:

25, 1.00; 100, 3.00; 500, 12.50; 1,000, 25.00

CHIEF—Ten days earlier than the Latham and more hardy. Will outyield it, especially on low land.

Number 1:

25, \$0.56; 100, \$1.75; 500, \$ 7.25; 1,000, \$12.50

Extra large:

25, 1.00; 100, 2.75; 500, 10.00; 1,000, 20.00

NEWBURGH—A new raspberry. Growers claim it out-yields Latham. Try at least a few.

Each, \$0.20; 12 for \$1.25; 25 for \$2.00; 100 for \$4.00

Black Beauty.

BLACKBERRIES

We can furnish you plants for any of the four best varieties for this section.

CUMBERLAND, NEW LOGAN, BLACK BEAUTY, and KANSAS—25 for \$1.00; 50 for \$2.00; 100 for \$3.50; 500 for \$15.00; 1,000 for \$28.00.

POTOMAC PURPLE—12 for \$1.75; 25 for \$3.00; 50 for \$5.50; 100 for \$6.50.

STRAWBERRIES

We do not like to dig strawberry plants too early in the spring because they have poor roots and sometimes fail to grow. We ship at the proper time and prepay postage on orders up to 500 plants. Over that amount we send express collect.

DORSETT—A new berry. We consider it the best of the June-bearing varieties.

50 plants, 75c; 100, \$1.25; 500, \$5.00; 1,000, \$9.00

FAIRFAX—Supreme in quality—a flavor you will never forget. Berries are bright red and are outstanding for home, garden, and market.

50 plants, 75c; 100, \$1.25; 500, \$5.00; 1,000, \$9.00

BLAKEMORE—The outstanding strawberry for all around use. This is the only variety that will do well on light and sandy soil. It will, of course, do better on rich or peat land. The berries are large, red and good. They are well off the ground.

50 plants, 60c; 100, 95c; 500, \$3.50; 1,000, \$6.00

SENATOR DUNLAP—Same price as Blakemore.

PREMIER—The most popular variety—needs no introduction.

50 plants, 60c; 100, \$1.00; 500, \$4.75; 1,000, \$8.00

EVERBEARING STRAWBERRIES

GEM is one of the outstanding everbearing strawberries.

The large, bright red berries over an inch in diameter have been in demand for a long time. Gem will fill the bill. 25 plants, 75c; 100, \$2.00; 500, \$7.25; 1,000, \$12.00.

WAYZATA is the latest in everbearing strawberries. It bears a heavy crop of bright red, exceptionally good flavored berries. 25 plants, \$1.50; 50, \$2.50; 100, \$4.50.

New RED LAKE CURRANTS

This is Minnesota's No. 24. Originated at the University of Minnesota plant breeding farm. It has large berries on clusters. Very desirable for this section. 3 for \$1.00; 5 for \$1.60; 10 for \$3.10.

GRAPES

BETA and ALPHA—Two especially hardy varieties. Fairly good for eating. Each, 35c; 5 for 85c; 10 for \$1.50; 25 for \$3.50.

NEW FREDONIA—Better than Concord. Must be covered with dirt for winter protection. Each, 35c; 5 for \$1.85; 10 for \$3.50.

FOUR NEW VARIETIES—These are new and valuable grapes which should be covered with dirt. Try at least one of each.

Fredonia.

Golden Muscat. Each. \$1.50 Portland. Each. \$0.75
Ontario. Each.85 Catawba. Each.50

We pay the postage on raspberry plants, grape vines, and currants on orders of 500 or less. 500 and over will be sent by express collect.

Beautiful Permanent Perennials

The Gorgeous Peony.

PEONIES—There is no flower that has more admirers than the peony. It requires little attention after it is once planted.

Strong 3 to 5-eye roots. Each, 50c; 6 for \$2.50; 12 for \$4.50. Red, pink or white.

IRIS—Is an old but favorite flower with everyone. It is one of the first to appear in the spring. Strong roots of either lavender, blue, yellow or leather brown. Each, 15c; dozen, \$1.20; 5 dozen, \$4.50.

BLEEDING HEARTS—Strong three-year-old roots. Each, 50c; 2 for 80c; 4 for \$1.60.

DELPHINIUM (Larkspur)—Grows 3 to 4 ft. tall with beautiful dark blue flowers. Strong plants. Each, 20c; 12 for \$2.00.

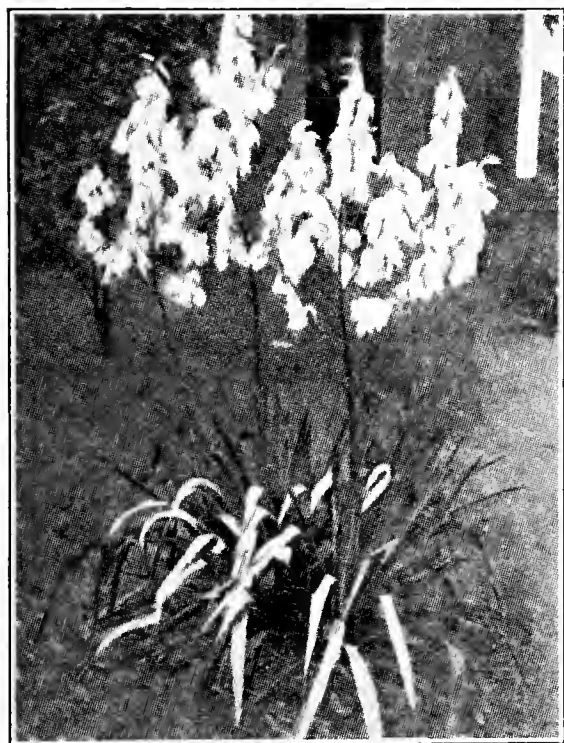

GAILLARDIA GRANDIFLORA — One of the perennials that flower continually from June to October. They thrive in any position or soil. Perfectly hardy. Each, 25c; 2 for 45c; 5 for \$1.00.

PHLOX—The gorgeous blooms of the perennial Phlox are present from July until November. Hardy, easy to grow. Strong two-year-old plants. Each, 20c; 6 for \$1.25; 12 for \$2.00. Colors: red, white, pink, salmon pink, and lavender.

HOLLYHOCK — Double, mixed colors. Each, 15c; 6 for 75c; 10 for \$1.25.

FALL DAISY—Very hardy, grows anywhere. Height, 3 ft. Blooms late in fall. Large clumps. Each, 15c; 6 for 75c; 10 for \$1.25.

YUCCA—A very striking plant of tropical appearance. A stiff clump of sword-like leaves surround the stalk of creamy bell-shaped flowers. Each, 30c; 6 for \$1.50; 12 for \$2.50.

Yucca.

Delphinium.

CHINESE ELM

The fastest growing, hardiest, most drought-resisting tree for windbreak, shelterbelt and ornamental planting. Plant this spring and enjoy the benefits in a few years.
